SUMMARY

Data Analyst with experience in SQL, Python, Excel, and Power BI, specializing in customer analytics, segmentation, KPI analysis, and dashboard development. Skilled in transforming raw data into actionable business insights through data cleaning, exploratory analysis, visualization, and business recommendations across banking and consumer domains.

EDUCATION

Dr. SPM International Institute of Information Technology (IIIT), Naya Raipur Aug 2023 – Present
Bachelor of Technology in Electronics and Communication Engineering CGPA: 7.63

EXPERIENCE

SNS (Scan N Shop) — Co-initiator & Product Research Jul 2025 – Sep 2025

- Conducted market and competitor analysis to identify customer pain points, business opportunities, and product positioning strategies for a SaaS-based shopping platform.
- Performed user research and collaborated with the team to define product requirements, improve customer experience, and develop data-driven solutions.

BrightPitch — Business Development Intern Oct 2024 – Dec 2024

- Analyzed market trends, competitor pricing strategies, and customer requirements to support the development of a structured pricing catalogue.
- Provided data-driven insights to assist pricing decisions and support business growth initiatives through market analysis.

SKILLS

- **Programming & Data Analysis:** SQL, Python (Pandas, NumPy), Data Cleaning, Exploratory Data Analysis (EDA)
- **Data Visualization:** Power BI (DAX, Data Modeling, Interactive Dashboards), Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, Charts, Conditional Formatting)
- **Analytics:** KPI Analysis, Customer Segmentation, Churn Analysis, Trend Analysis, Data-Driven Decision Making
- **Statistics:** Descriptive Statistics, Probability Basics, Hypothesis Testing (Basics)
- **Business Analysis:** Requirement Gathering, Business Insights, Market Analysis, Process Improvement
- **Tools:** Jira (Agile Basics), MySQL

PROJECTS

Customer Lifetime Value & Retention Strategy  GitHub

- Queried and analyzed **10,000+ credit card customer records using SQL**, Python, Excel, and Power BI to identify churn drivers, customer segments, and retention opportunities.
- Performed **customer behavior analysis** across demographics, card categories, spending patterns, and transaction activity to identify high-value and at-risk customers.
- Developed an **interactive Power BI dashboard** tracking key KPIs including Attrition Rate, Average Transaction Amount, Credit Limit, and Customer Segments.
- Generated **data-driven retention strategies** by analyzing churn patterns and customer lifetime value to improve customer engagement and reduce attrition.

Customer Behavior & Segmentation Analysis Dashboard  GitHub

- Analyzed **3,900+ customer records** using SQL, Python, Excel, and Power BI to uncover purchasing patterns, customer segments, and revenue trends.
- Built an **interactive Power BI dashboard** tracking KPIs such as Average Purchase Amount (\$59.76) and Average Review Rating (3.75) to support business decisions.
- Performed **customer segmentation analysis** based on age, gender, subscription status, and category, identifying that **73% users were non-subscribers**.
- Derived actionable insights from sales and customer behavior trends, highlighting top-performing categories and opportunities for customer engagement.

LEADERSHIP & ACHIEVEMENTS

- Co-initiated **SNS (Scan N Shop)**, leading product research, market analysis, and solution development; achieved **2nd Runner-Up at 23 Ventures Startup Sprint** and selected as a **Finalist at Chhattisgarh Shark Tank**.
- Core Team Member, **Technovate 6.0** – Managed event logistics and coordinated operations for **2000+ participants**.
- Event Lead, **Aarambh 8.0** – Led a team of **100+ students** to organize events and achieved **1st Runner-Up position**.
